

PICKED and DISCO-I

Joint Meeting Agenda

May 13–15, 2025 | Toulouse, France

Welcome to the PICKED and DISCO-I Joint Meeting!

Over three days, we will gather to foster collaboration, share insights, and explore the forefront of kidney disease research and innovative omics technologies.

This event brings together doctoral candidates, leading experts, and distinguished speakers for interactive workshops, thought-provoking presentations, and skill-building sessions. Our agenda is designed to advance research excellence, promote open science, and strengthen the foundations of future discoveries.

"Together, we drive innovation in kidney research."
